

# Outline

# Rings fresh

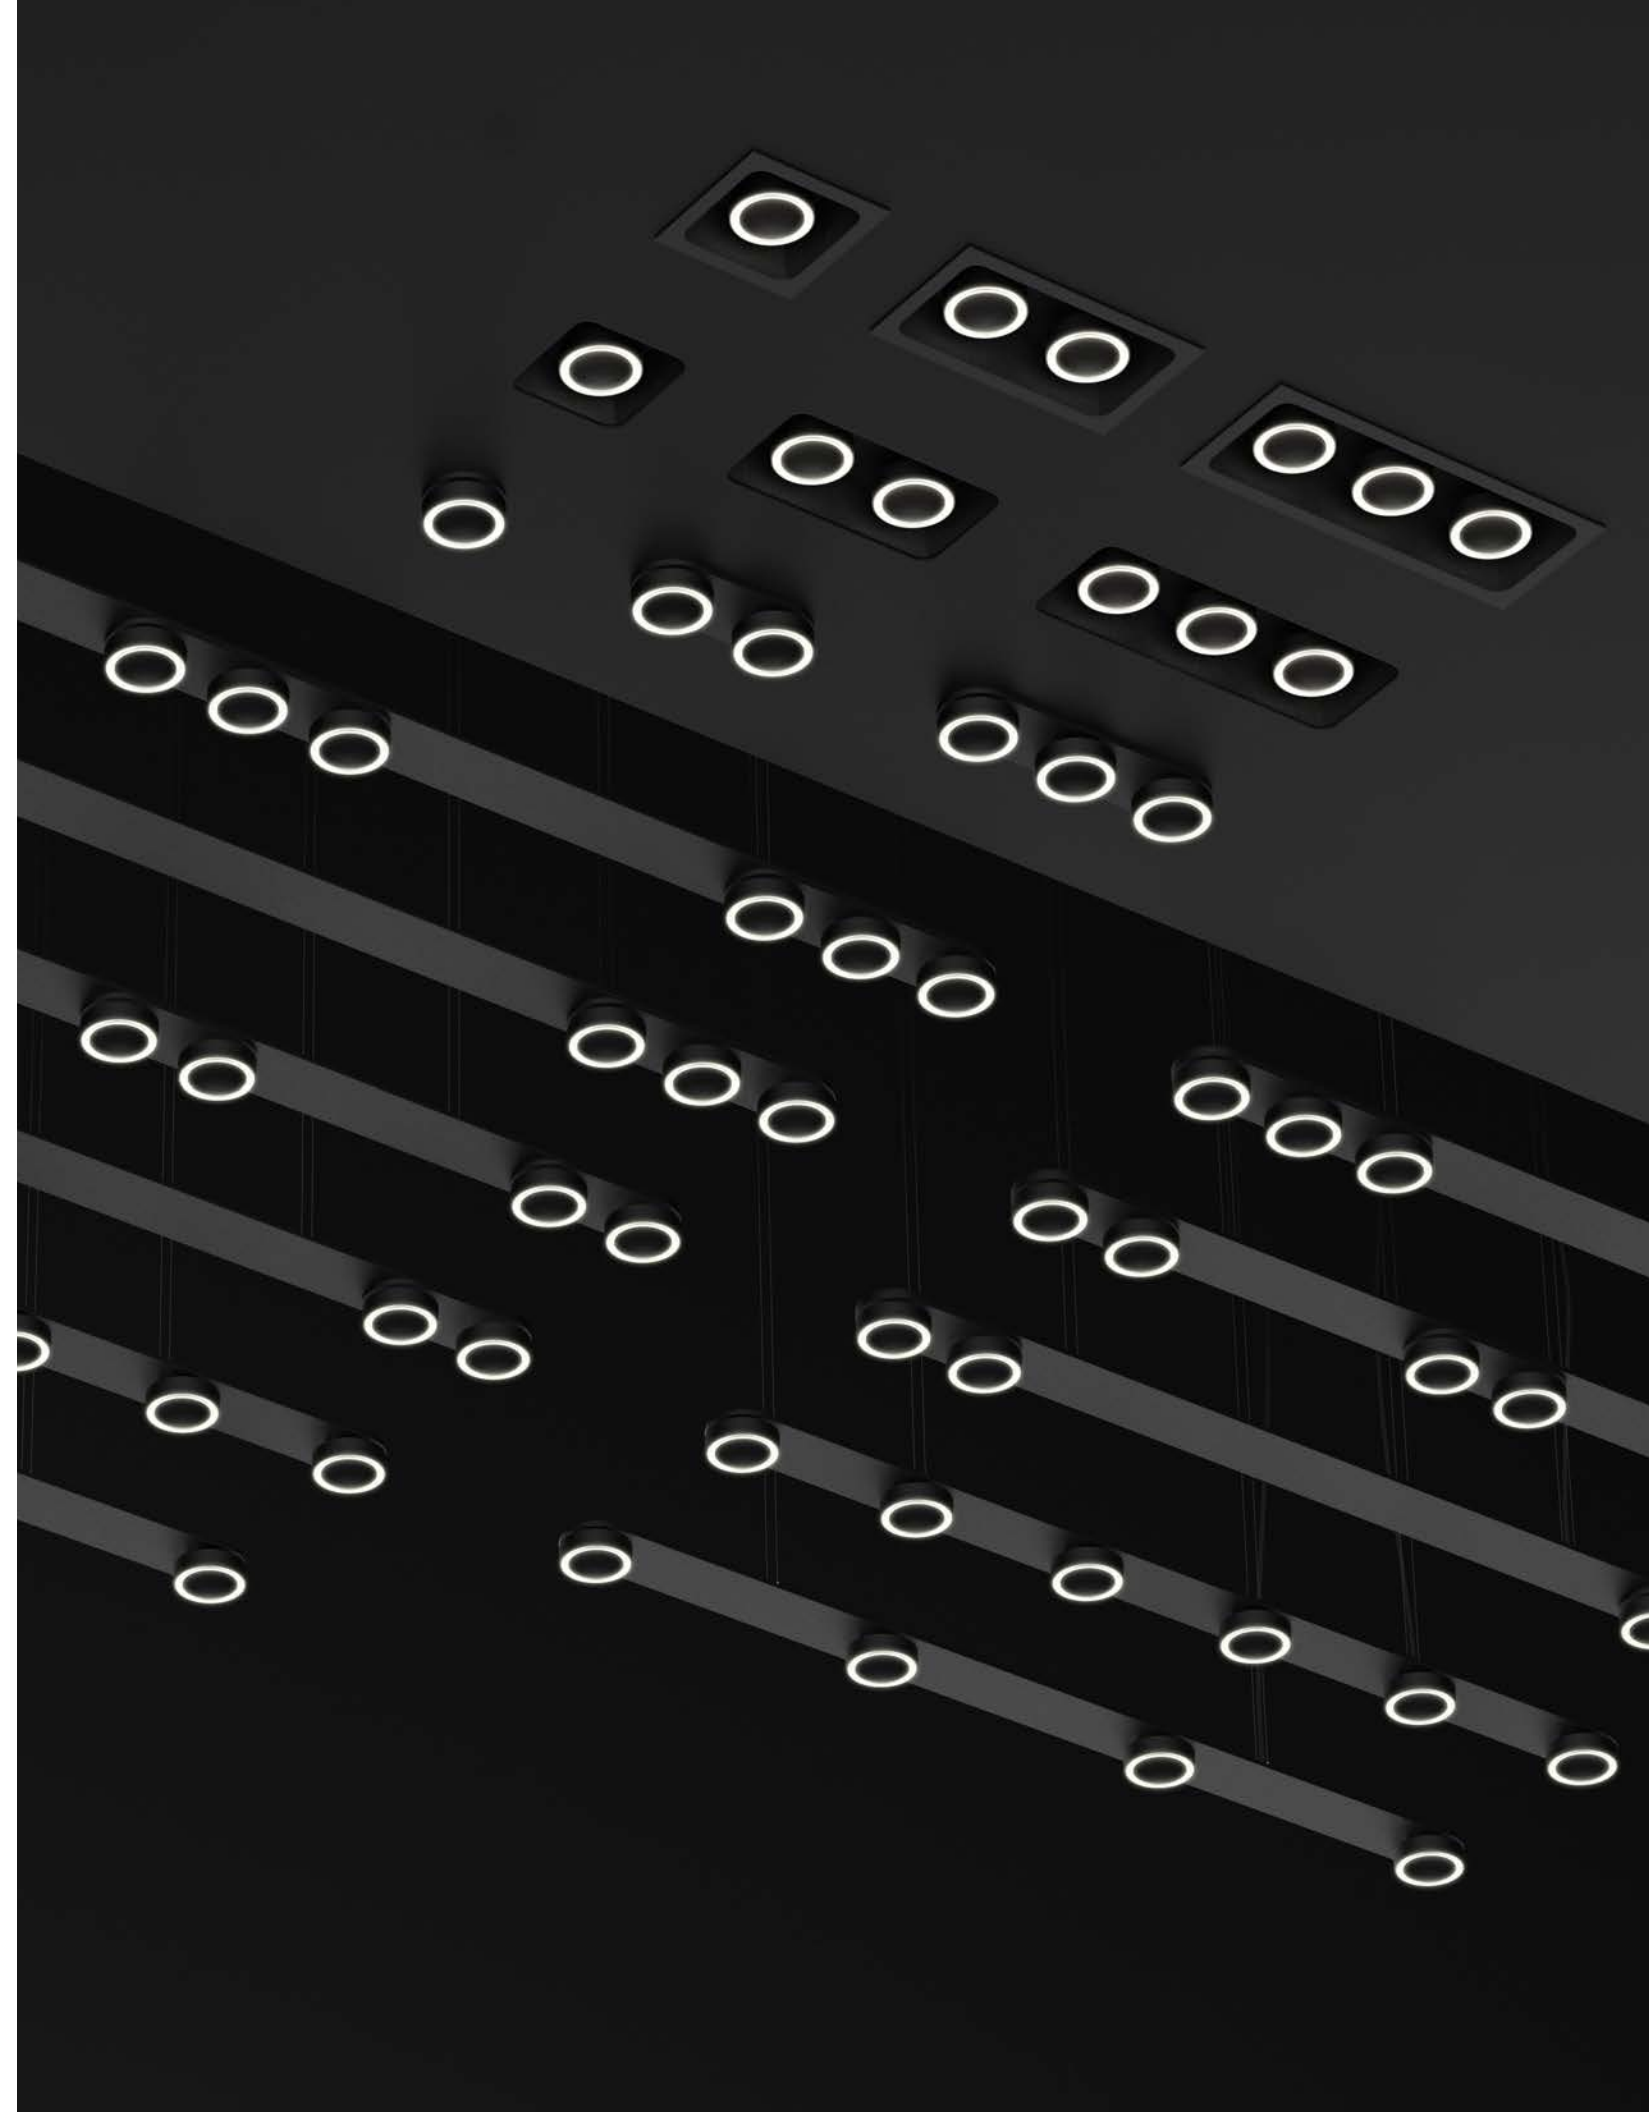

Outline exhibits a willingness to challenge traditional notions of projector-type lighting design. It brings together modern lines and innovative technology in a revitalized product concept across multiple configurations.

Outdesign. Outperform. →

**A cutting-edge optic for  
seamlessly uniform light.  
A cohesive design idea  
flawlessly executed.**

**Outline takes the fusion of  
functionality and aesthetics  
further than ever before,  
opening whole new  
windows of possibilities.**

The lenticular grooves of the unique TIR lens blend the light softly. The lens creates a uniform light beam with high optical efficiency.

Optic excellence

**A leap in lens design.**

**Advanced optics  
create a more uniform  
and effective light  
beam enabling quality  
illumination with a  
smooth cut-off.**

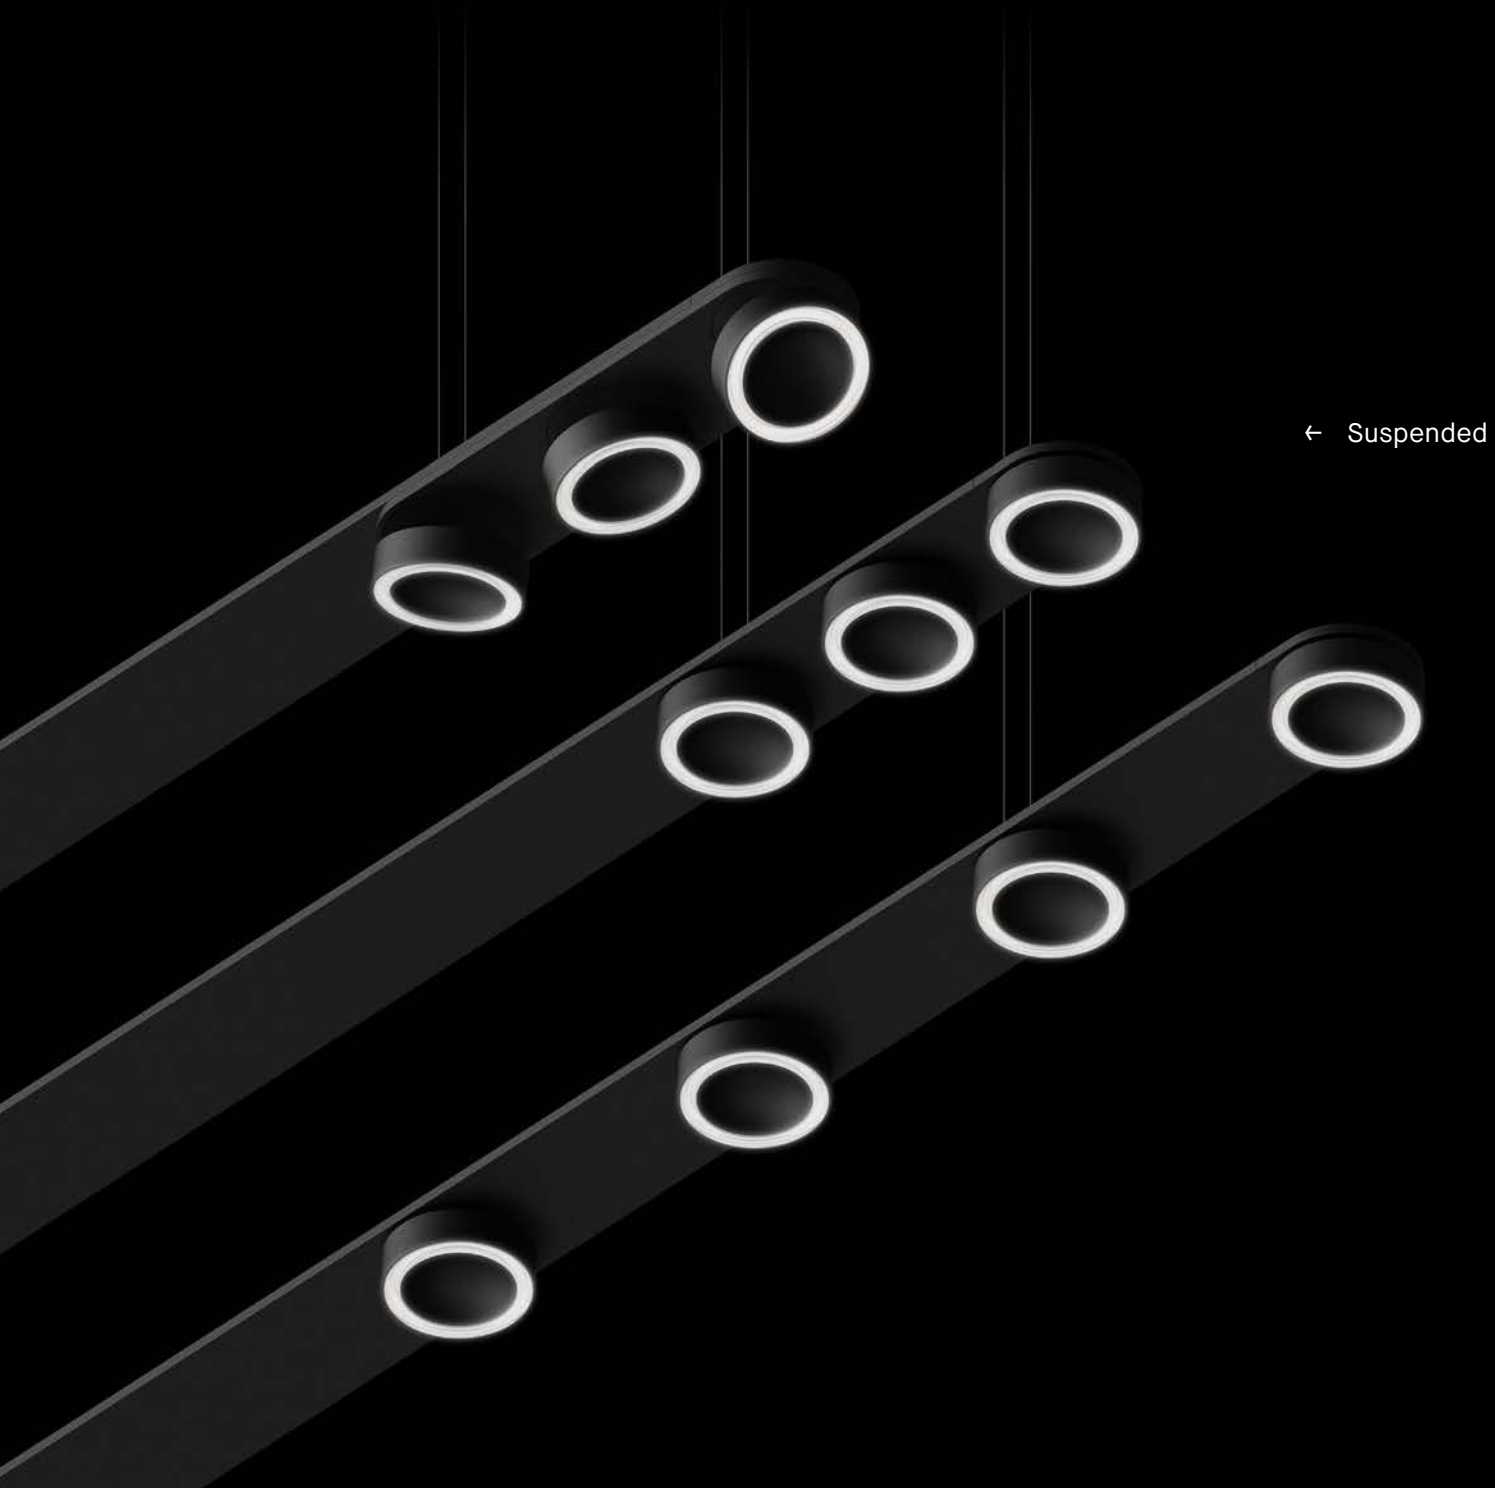

# Continuity in design

Outline's modern aesthetic can be expressed in different ways to accentuate modern work environments while maintaining a commonality of design purpose.

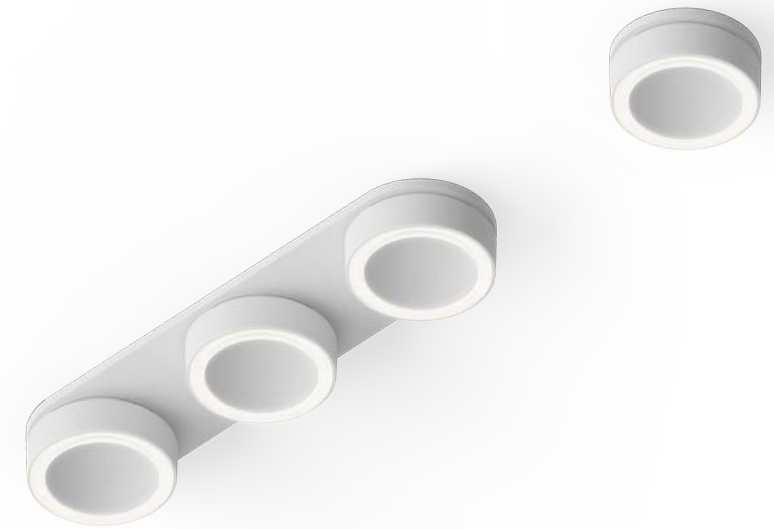

More possibilities → **Carry a design theme  
anywhere with recessed,  
surface and suspended  
mounting iterations.**

Recessed with trim →

# Crafting ambiance

Dining, bar and transitional areas in restaurants or hotel spaces can get a graphic, modern lighting treatment with Outline. And each in its own distinctive way.

- ← Twinned cables keep suspended fixtures perfectly level, even if the application requires all heads to be angled in the same direction.
- ← An optional uplight on suspended version can greatly improve overall lighting effect.

Point and shoot → **Clever design of both aimable and fixed projector heads is a standout feature of Outline.**

Recessed version heads rotate on magnetic ball joints that keep the head centered in the housing, preserving symmetry while snapping back to horizontal.

↻ 360°+ rotation

↘ 40° tilt

Projectors on surface and suspended versions pivot smoothly and hold their position with a friction hinge.

↻ 358° rotation

↘ 70° tilt

Project with power → **Up to 1250lm per head provides a 30 degree beam of quality aimable ambient light.**

# Shaping retail

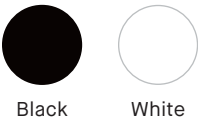

Outline brings a modern look to high-end retail establishments. Precise aimability makes illuminating displays easy. It also provides great ambient lighting that highlights merchandise and store design elements.

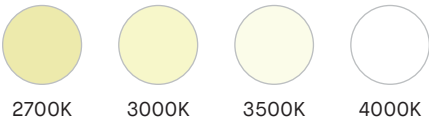

# Standard options

## Finishes

## Color temperatures

## Outputs

- Suspended downlight    LO — REG
- Suspended uplight    LO — REG — HO
- Recessed & surface    REG — HO

## Color index rendering (CRI)

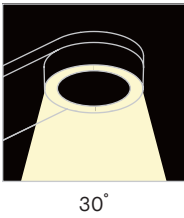

80+ CRI — 90+ CRI

## Dimming options

0-10V dimming (DV) — Phase dimming (DP)\*

\* Only available for surface & recessed

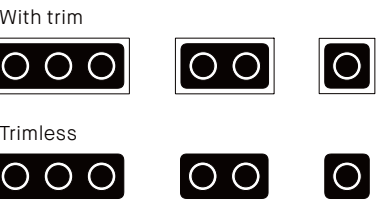

## Beam angle

## Mounting options

Three different mounting types meet a wide variety of head number and arrangement options.

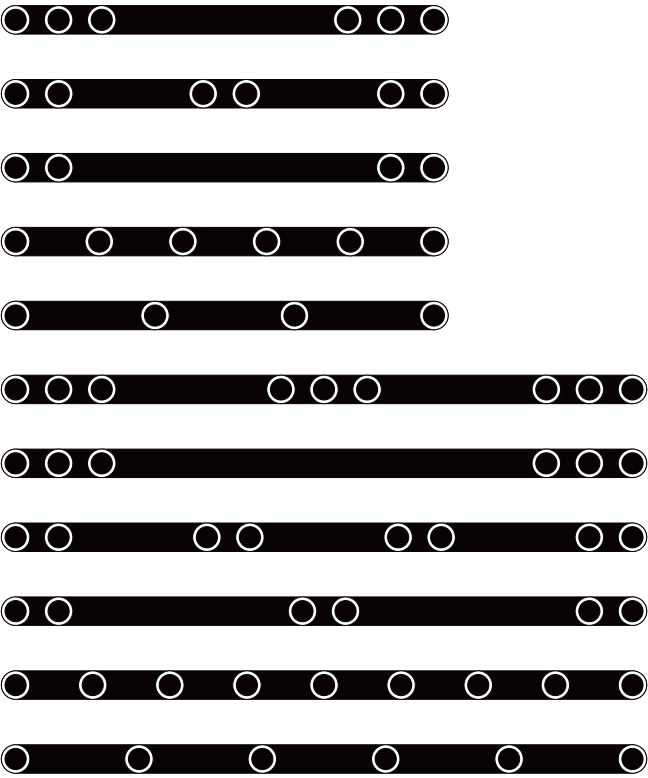

### Recessed

### Surface

### Suspended
